hello@ugahacks.com

Hello!

I wanted to personally thank you for attending **UGAHacks 6** over the weekend of February 5th-7th, 2021! It was a very special weekend full of fun, ideation, and countless opportunities to grow. Each and every single person that attended over the weekend made this event something truly special.

Our event this year was very different from previous as our team worked hard to keep the standard that is UGAHacks amidst a pandemic. This was the first year that we saw a completely virtual aspect to our event. There were a lot of difficulties that emerged with us switching over to a fully online event this year but we got to experiment and explore new ideas to bring to our event. It was amazing to see how even with a virtual event UGAHacks 6 was still able to grow and impact communities across the world!

We got to welcome over 400 hackers, 150 sponsor representatives, 33 organizers, and 10 mentors to join us for the weekend. With our virtual event we got to see an increase of participants, mentors, and sponsors from all across the country and the world. We had a variety of amazing workshops, entertaining side-events, and had the opportunity to enact a new tradition - our live broadcast!

This was all possible thanks to you! Without your participation and your involvement, UGAHacks 6 would not have been as great as it was. What a

great weekend, and we cannot wait till next year! But until then **Keep Booting  
Up your Dreams and Building the Future!**

Best,

**Glen George**

UGAHacks, **Lead Director**
